10 Tips to Organize Your Home in 2012

By Kerri Fivecoat-Campbell

Give Your Space a Purpose

Brette Sember, author of the newly released book *The Organized Kitchen*, says those looking to organize their home should start by giving each room a purpose. "This then allows you to decide what belongs there and what is in the way," Sember says.

Sember also suggests thinking about how you could more efficiently use each area of the room. "For example, if your scrapbooking stuff ends up sitting in a never-touched pile on top of the area where you like to fold laundry, you've made that space unusable," she says. "Isolate activities or tasks that happen – or should happen – in that space and keep only those items there."
