Have you been looking for some new inspiration in the kitchen? Then I think you may want to give *The Muffin Tin Cookbook* a try. I was skeptical and not sure how this cookbook would go over with me considering the theme. So what better way to review it than to read it from front to back and then grab a few recipes to try out. *The Muffin Tin Cookbook* includes 200 recipes that can be prepared using muffin tins.

The Muffin Tin Cookbook is broken down into 9 chapters from Appetizers and Snacks to Desserts. Each individual recipe has a little icon next to it letting you know which size muffin pan is required for that particular recipe. Some of the recipes you cook directly in the tin while others require you to use liners, with some you also use pie crusts and even crescent rolls. You have a wide variety of different recipes to choose from so you will never get bored using your muffin tins.

I really like how quick these recipes are to prepare, which had me turning to this book again and again for [meals](#). They are also easy to serve and my family was happy to try the different dishes I whipped up. One of my favorites recipes in the book and one that my family loves are the "Stuffed Potato Cups" from chapter 6, "Potatoes, Rice, Pizza and Pasta. This recipe uses shredded hash browns as a base and regular sized muffin tins. Another great recipe that is a hit with kids are the "Mac and Cheese Cups," which uses whole wheat elbow macaroni and jumbo muffin tins.

The great thing about this book is how each regular and jumbo muffin cup makes one serving size so portion control comes easier to those who are watching their weight. The author Brette Sember also lists calories, fat and other nutritional information per serving for easy reference. This is one great cookbook that I won't be lending out to any friend, as I know for sure if I do, I won't be getting it back.

Summary:

Muffin Tins--They're Not Just for Muffins Anymore

There's nothing you can't make in a muffin tin--and we're not talking merely muffins. All you need is a muffin tin, paper liners, and this ingenious, one-of-a-kind cookbook, and you can whip up delicious dishes that are as easy to prepare and serve as they are good to eat.

From quick-serve appetizers and sides to gourmet entrees and desserts, you'll find an amazing variety of mouthwatering options for your dining pleasure, including:

- *Shrimp Cakes with Cilantro Lime Dipping Sauce
- *Egg Crescent Pockets
- *Deep-Dish Pizza Cups
- *Cornmeal-Crusted Mustard Chicken with Sweet Potato Coins
- *Duchess Potatoes
- *Zucchini, Corn, and Tomato Cups
- *Mini Ice-Cream Cakes

The best part (besides the tasty goodness!): It's fast, easy, mess-free, and provides built-in portion control. Kids will love to help you make them--like cupcakes, only better for your family!--and leftovers are as easy as popping the muffin-meal into the microwave.

It just doesn't get any better than *The Muffin Tin Cookbook* . . . your next memorable meal is just a muffin tin away!

My inspiration behind this
blog

I have a love of creating
with my hands and the
need to share this with
others. This blog has a
little bit of everything I do
which includes making
jewelry and selling supplies
through my Artfire and
Etsy shops. I love to do
reviews/giveaways on
health and beauty,
cooking, books, food, dog
items plus much more. I
am a mother of three
children including one
rescue dog Angie who
works hard at reviewing
doggie items. You will find
a little of everything here.
My designs will also be
shared on this blog and
the sweat and tears
behind them. Hope you
join me in this new
adventure of mine.
