Vol. 16, No. 12

October, 2005

Seniors have active, full and satisfying lives, filled with friends, activities and jobs. Now seniors can make the most of these years by understanding their legal rights. **Seniors' Rights: Your Legal Guide to Living Life to the Fullest** (Sourcebooks, 2004, ISBN 1-57248-386-5, \$19.95) by retired attorney Brette Sember helps seniors make the most of these years. "Seniors are active and involved people, but many are not aware of the basic rights they are entitled to because of the age group they fall into," says Sember.

**Seniors' Rights** includes information about rights concerning property tax exemptions, financial planning, wills and estates, retirement, Social Security, Medicare, long term care insurance, veteran's benefits, grandparents' rights, age discrimination, scams, home safety, living trusts, health care and much more.

The first step to protecting your rights is understanding them. **Seniors' Rights** provides the information needed to not only recognize your rights, but to use them effectively.
